

LLOYD JERNELL C. LOTERIÑA

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

Brgy. Magsaysay, Tagkawayan, Quezon | ljcloterina1726@gmail.com | 0916-387-7045

PROFESSIONAL SUMMARY

Bachelor of Science in Information Technology graduating with hands-on experience developing and optimizing enterprise web applications using React, ASP.NET Core Web API, and SQL Server. Experienced in frontend development, API integration, responsive UI design, and collaborative software development. Eager to contribute technical skills and continue growing as a software developer.

WORK EXPERIENCE

One CoreDev IT Inc. (CORE®) | February 2026 – May 2026

- Developed and maintained full-stack web applications for Procurement, Administrative, and Internal Operations using React, C#, ASP.NET Core Web API, SQL Server, and Entity Framework Core.
- Designed and implemented responsive user interfaces, backend APIs, database integration, and business workflows following Clean Architecture and SDLC best practices.
- Collaborated with the System Development Team in requirements analysis, UI/UX design, debugging, testing, technical documentation, and deployment preparation using Figma, Git, SourceTree, and ClickUp.
- Strengthened technical and professional skills in full-stack development, problem-solving, teamwork, and software development while delivering reliable and high-quality solutions in an Agile environment.

EDUCATION

Polytechnic University of the Philippines - Lopez, Quezon September 2022 - Present

- Bachelor of Science in Information Technology

Tagkawayan National High School 2020 - 2022

- Science, Technology, Engineering, and Mathematics (STEM)
- With Honors, DLSU Research Congress Participant, and Quezon Science & Technology Fair

PROJECTS

MATHTATAG

- A React Native mobile application with a Firebase backend, featuring inteGrade 1 mathematics assessments, Filipino text-to-speech integration, role-based dashboards, and real-time performance analytics.

Fortress Security Agency

- Computerized application designed to efficiently manage security guard records, shift schedules, attendance, and automated salary calculations using a centralized database to replace manual record-keeping.

PUP M.A.S.I.D

- A machine learning-based monitoring system developed in Python that ensures academic integrity in digital assessments through real-time behavior and application tracking.

PROFESSIONAL AND TECHNICAL SKILLS

Technical Skills: React.js, C#, ASP.NET Core Web API, SQL Server, Entity Framework Core, JavaScript, TypeScript, HTML5, CSS3, Git, SourceTree, Figma, ClickUp, RESTful API Integration, Database Management, Clean Architecture, UI/UX Design, Software Testing, Debugging, Technical Documentation.

Interpersonal Skills: Analytical Thinking, Problem-Solving, Communication, Team Collaboration, Adaptability, Time Management, Attention to Detail, Critical Thinking, Continuous Learning, Professionalism, Organization, and Leadership.

SEMINARS AND CERTIFICATIONS

- | | |
|---|------------------|
| • 16 th EdukCircle International Convention on Engineering and Computer | May 2024 |
| • Tech Career Skills: Effective Technical Communication - LinkedIn | Nov 2023 |
| • Preparing Future IT Professionals Through Enterprise Networking, Cybersecurity, and Security Operations Center (SOC) Exposure Seminar | Jan 2026 |
| • PicsPro: Quezon Cybersecurity Conference X Chapter Activation | June 2024 |
| • Digital Literacy Training: Introduction to Data Analytics - DICT | Jan 2023 |
